|     |                                                                             |     | OVERALL TOTAL | <b><u>4,020,400.00</u></b> |

#### N.B.

1 All prices are valid for 5 days from the date on this quote >>

Please, note that, with the SIM in the cameras, **you will be able to view and control the cameras, and also do playbacks of recorderd footages, locally or FROM ANYWHERE you are in the**

- 1 This particular Camera model being proposed, is very sophisticated and is AI-based, which makes it very proactive.
- 2 With SIM Card installed in it, it will connect to the Internet, so you can monitor activities going on, **through your smartphone/Tablet**, Live! 24/7
- 3 These Cameras can send you ALERTS to your phone, 24/7/365, ANYWHERE you are in the world! - through the internet.
- 4 The cameras can automatically SNAP Pictures and RECORD Videos on their own, whenever they detect (human) motion - you can then do a PLAYBACK later.
- 5 Cameras are equipped with **\*2-way Audio\***, so, they can record voice/sound and you can also hear whatever anybody is saying, where the cameras are - Live!
- 6 In addition, these cameras also provide about 300 WATTS Flood Lighting, which will effectively illuinate your surrouding - to up to 10 metres radius.
